

## We are hiring!

**Position available:** Postdoctoral Research Associate

**Location:** Seattle, WA

**Overview:** The [Buckner Lab](#) is renowned for expertise in translational immunology and human autoimmune disease. Research in the Buckner Lab focuses on identifying the underlying mechanisms by which the adaptive immune response to self-antigen becomes pathogenic in the setting of human autoimmune study. They use cutting edge techniques and primary human immune cells to study the following autoimmune diseases: type 1 diabetes (T1D), rheumatoid arthritis (RA), multiple sclerosis (MS), systemic lupus erythematosus and irAE in Cancer immunotherapy.

They have extensive experience in MHC class II tetramers, T cell cloning, T and B cell functional assays, gene editing and phenotyping of human lymphocytes.

Potential projects in the Buckner Lab include:

- Development of regulatory T cell - based therapies
- Identification and characterization of antigen-specific T cells in rheumatoid arthritis
- Genotype-phenotype studies of genetic variants associated with autoimmune disease
- T cell response to cytokines in autoimmune disease.
- irAE in the setting of cancer immunotherapies

**Responsibilities:** We are looking for a highly motivated postdoctoral fellow to develop and implement a project, design and perform experiments, write manuscripts, present to the scientific community and contribute to the preparation of grant applications. They will be expected to work as part of a team, collaborating within the lab and between labs at BRI and other research institutions.

**Qualifications:**

- Recent or anticipated PhD, MD or MD/PhD
- Experience in immunology is desirable
- Excellent written and oral communication skills
- Collaborative; performs as team member and has good interpersonal skills
- Strong analytical and organizational skills with excellent attention to detail
- Ability to work independently and effectively
- Proven track record of problem-solving
- Publication in peer-reviewed journals

**Compensation & Benefits:** \$65,479 – \$68,490. Please click [here](#) for benefit summary.
