

UNIL is a leading international teaching and research institution, with over 5,000 employees and 15,500 students split between its Dorigny campus, CHUV and Epalinges. UNIL and CHUV encourage excellence, individual recognition and responsibility. The Faculty of Biology and Medicine ([FBM](#)) and the Lausanne University Hospital ([CHUV](#)) are inviting applications for a position of:

Associate Professor and Senior Physician within the Service of plastic and hand surgery

Starting date: to be agreed

Location: Lausanne, Switzerland

[The Service of plastic and hand surgery](#) of the Lausanne University Hospital (CHUV) is a highly specialized service acting in reconstructive and aesthetic plastic surgery, together with all elective and emergency hand pathologies. The CHUV offers cutting-edge structures and a research lab. Besides clinical activities, research and teaching in plastic and hand surgery have a prominent role in department activities.

The successful candidate is expected to:

- Guarantee University Hospital plastic surgery procedures including expertise in microsurgery, she/he will be Senior physician, with role of Head of the Service during the absences of the Head of the Service (Prof W. Raffoul)
- Provide scientific leadership and deliver top quality research outputs contributing to innovation in plastic surgery
- Deliver undergraduate (medical students) and postgraduate teaching (residents)
- Provide expert advice and support in plastic and reconstructive surgery to other public health practitioners (trans-departmental activities)
- Contribute to the management of the Service
- Contribute to multidisciplinary clinical research
- Have an established basic science research line, ideally with supportive grants, which meet Service clinical needs and expertise

Desired profile :

- MD, MD-PhD or title recognized by the Federal Commission for Medical Professions ([Mebeko](#))
- FMH Specialist Title or equivalent ([Mebeko](#)) in plastic, reconstructive and aesthetic surgery
- Microsurgical experience with microsurgical fellowship. Clinical skills with recognized microsurgical capacities, particularly in breast microsurgery, lower limb microsurgical reconstruction, sarcoma and lymphatic micro surgery
- Innovative and dynamic profile with academic leadership.
- Track record of effective team working and collaborative development, including international links and evidence of effective engagement
- Solid basic science background, with defined research line matching with the clinical activities of the department
- Track record of clinical publications meeting standards of academic excellence
- Willingness to take on a significant role in the CHUV and the FBM
- Proficiency in French (level at least B2, C1 ideally) a second swiss language (an asset) and a fluent use of English

Further information may be obtained from Prof. Wassim Raffoul (wassim.raffoul@chuv.ch), Head of Service.

Applications, in English, will include a motivation letter, a curriculum vitae, a copy of the five most relevant publications, as well as names and contact information of three referees, a brief statement of research interests and teaching experience and a copy of diplomas. They should be submitted online by **August 15th 2021 (23:59 GMT+1)** to www.fbm.unil.ch/releve/application/ as a single PDF file.

The job description is available on [the same link](#) (or QR code).

We offer a pleasant working atmosphere in a multicultural, diverse and dynamic academic environment. There are possibilities for continuing professional education and a multitude of activities and other benefits to discover. UNIL and CHUV are committed to promoting gender equality and diversity and strongly encourage applications from female candidates. www.unil.ch/egalite
